

# Clean Water Pledge

I care about the environment!

I will do my part to keep the water clean in Florida's rivers, lakes and springs:

1. I will not litter. I will put drink cups, cans, bottles, food wrappers, papers and all other trash into garbage cans and recycle containers.
2. I will use a refillable bottle or cup for my drinks whenever I can.
3. I will take shorter showers to save water.
4. I will turn off the water while I brush my teeth.
5. I will walk or bike short distances when my parents say it is OK.
6. I will sweep or blow grass clippings back onto the lawn, not into the street, when I help with yard work.
7. I will clean up after my pet.
8. I will remember that only rain should go down storm drains.

I'm a Clean Water Kid!
